Finding your wrist size

Print this page at 100%. Do not scale to fit. You can place a credit card below to check the print size.

1. Cut out the tool. Place the wider end on your wrist where you want to wear your bracelet. You can use a piece of sticky tape to secure the tool to your wrist.
2. Wrap the tool around your wrist. Make sure it is snug fit.
3. The number where the arrows point to is your wrist size.
4. If your wrist is exactly between two sizes, size up for a loose fit and size down for a snug fit.
